THE HOME BEAUTIFUL

Every one to a greater or less extent possesses some artistic taste. Most of us are able to distinguish the beautiful from the common-place, but few are able to name wherein a thing is good or bad. Few are able to put the finger on the spot making or marring the entire effect of a color scheme or arrangement.

Nothing contributes so much toward the beauty of the home as the hangings—the pictures, curtains, and so forth. The most simple material, if artistically selected and used, will produce that air of coziness and comfort so much to be desired in the home.

The department of the Pettit Store devoted to Portieres, Window Curtains, Couch Covers, etc., will be found most complete, and we gladly extend to you the advantage of our experience in suggestions and advice.

The Furniture, too, should be selected with care to obtain the desired end. The various reproductions of old period styles, the more modern, all allow practically an unlimited latitude for artistic house-making. A little touch of color here and there in the shape of a cover for the table, bureau or dresser, as the case may be, adds greatly to the beauty of the home, and the floor coverings also play an important part.

The artistically furnished home has a subtle influence on the mind, producing a sense of restfulness and peace without which our abode is not in reality a "home."

Having years of experience in home furnishing, we are in a position to offer valuable suggestions and advice. We are only too glad at any time to help you in the furnishing of the new home or the refurnishing of the old.

OUR POLICY

No small measure of the success of our business may be traced to our store policy. It has always been our aim to treat all customers alike—the same of grace of courtesy and attention is extended, whether the purchase be large or small. Thus, there is a certain atmosphere of cheerfulness and good-will at the Pettit Store that in itself makes it a pleasure to buy there.

Others have noticed this air of good feeling and called our attention to it. We believe that it is an ideal condition for any store, making, as it does, for closer and firmer relations between the customer and the store.

We Save You Money

That we can save you money on every purchase is only too demonstrated by a visit to our store. In justice to yourself and to us, come in and investigate.

No matter what the amount of the purchase, a small cash deposit will secure the goods, and our Plan of Easy Payment will relieve you of all worry about paying.

The Pettit Store is your store, interested in benefiting you—not alone in merely selling you goods. We want to stand in an advisory capacity toward our customers, giving them the advantage of our experience in suggestions and information. We want you to feel that when you have purchased at the Pettit Store you have not only

obtained the BEST to be had at the price, but that you have also purchased wisely.

We want you to feel that you are at liberty to come to us at any time for suggestions on the rearrangement of decorations, and so forth, whether you purchase or not. We want, in fact, to have a personal relationship with our customers—not merely that cold, formal attitude of purchaser and seller.

You cannot fully appreciate this earnest desire of ours until you visit the Pettit Store. We hope that you will avail yourself of this cordial invitation to call at any time

Cash or Credit

If you desire the convenience of credit, there is no question of our willingness to extend it. We will be pleased to open an account, accepting a small cash deposit and allowing you to arrange subsequent payments to suit your convenience. Liberal discounts for cash.

Health and Beauty Hints

BY MRS. MAE MARTIN

It is a common complaint, especially among young women, to have a dry, cracked, and chapped throat. This is usually due to a lack of moisture in the throat, and can be prevented by drinking plenty of water and using a throat lozenge.

A New Principle in Complexion Treatment

(From Society World.)

Most women are injured when used habitually. They close the pores and eventually form a permanent, heavy, stifling film which interferes with climatic action and makes the skin sickly and pasty. There is an application—mercolized wax—which acts upon an entirely different principle. While perfectly harmless, it contains active ingredients which remove by absorption the dead and half-dead particles on the skin, as well as unhealthy matter in the pores. Thus it takes away from instead of adding to the complexion, differing in this respect from cosmetics. The result is a perfectly natural and healthy young complexion. Mercolized wax, procurable at any drug store (one ounce is sufficient), is applied at night like cold cream and washed off in the morning.

The correct principle in the treatment of wrinkles is to tighten the skin, which naturally runs out the lines. A face bath, remarkably effective in this direction, may be made by dissolving 1 ounce powdered saxonite in 1/2 pint witch hazel.
